**Item 8.01. Other Events.**

As previously disclosed, on March 19, 2019, the Listing Qualifications Staff of The Nasdaq Stock Market LLC (“Nasdaq”) notified EyeGate Pharmaceuticals, Inc. (the “Company”) by letter that, based upon the Company’s continued non-compliance with Nasdaq Listing Rule 5550(a)(2) (the “Bid Price Rule”), which requires an issuer to maintain a closing bid price of at least \$1.00 per share, the Company’s common stock would be subject to delisting from Nasdaq on March 28, 2019, unless the Company timely requested a hearing before the Nasdaq Hearings Panel (the “Panel”). In accordance with Nasdaq’s procedures, the Company appealed Nasdaq’s determination by requesting a hearing (the “Hearing”) before the Panel to seek continued listing, which stayed the delisting of the Company’s common stock. The Hearing occurred on May 2, 2019.

On May 13, 2019, the Panel granted the Company’s request for continued listing of the Company’s common stock on The Nasdaq Capital Market pursuant to an extension through September 16, 2019, subject to the condition that the Company regain compliance with the Bid Price Rule by such date. If the Company does not regain compliance with the Bid Price Rule by September 16, 2019 or, based on any significant events that occur during the extension period, the Panel reconsiders the extension, Nasdaq would delist the Company’s common stock from The Nasdaq Capital Market.

On May 14, 2019, the Company issued a press release announcing the Panel’s determination. A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

**Forward-Looking Statements**

Some of the statements in this Current Report on Form 8-K are “forward-looking” within the meaning of the federal securities laws. These “forward-looking” statements include statements relating to, among other things, the Company’s ability to remain listed on The Nasdaq Capital Market. These statements involve risks and uncertainties that may cause results to differ materially from the statements set forth in this Current Report on Form 8-K, including, among other things, certain risk factors described under the heading “Risk Factors” contained in the Company’s Annual Report on Form 10-K filed with the SEC on March 1, 2019 or described in the Company’s other public filings. The Company’s results may also be affected by factors of which the Company is not currently aware. The forward-looking statements in this Current Report on Form 8-K speak only as of the date hereof. The Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to such statements to reflect any change in its expectations with regard thereto or any changes in the events, conditions or circumstances on which any such statement is based.

### EyeGate Pharma Receives Positive Nasdaq Listing Determination

WALTHAM, Mass., May 14, 2019 (ACCESSWIRE) — EyeGate Pharmaceuticals, Inc. (NASDAQ: EYEG) (“EyeGate” or “the Company”) today announced that the Nasdaq Hearings Panel (the “Panel”) has granted the Company’s request for the continued listing of its securities on The Nasdaq Capital Market (“Nasdaq”). The Company’s continued listing on Nasdaq is subject to the Company evidencing a closing bid price of at least \$1.00 per share for a minimum of ten consecutive trading days on or before September 16, 2019, which period constitutes the full extent of the Panel’s discretion in this matter.

#### About EyeGate

EyeGate is a clinical-stage specialty pharmaceutical company focused on developing and commercializing products using its two proprietary platform technologies for treating diseases and disorders of the eye.

EyeGate’s OBG platform is based on a crosslinked thiolated carboxymethyl hyaluronic acid (“CMHA-S”), a modified form of the natural polymer hyaluronic acid, which is a gel that possesses unique physical and chemical properties such as hydrating and healing when applied to the ocular surface. The ability of CMHA-S to adhere longer to the ocular surface, resist degradation and protect the ocular surface makes it well-suited for treating various ocular surface injuries including surgical trauma.

EGP-437, EyeGate’s other product in clinical trials, incorporates a reformulated topically active corticosteroid, Dexamethasone Phosphate that is delivered into the ocular tissues through EyeGate’s proprietary innovative drug delivery system, the EyeGate II Delivery System. **Forward-Looking Statements**

Some of the statements in this press release are “forward-looking” and are made pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995. These “forward-looking” statements include statements relating to, among other things, the commercialization efforts and other regulatory or marketing approval efforts pertaining to EyeGate’s products, including EyeGate’s OBG product, its EGP-437 Combination Product, as well as the success thereof, with such approvals or success may not be obtained or achieved on a timely basis or at all. These statements involve risks and uncertainties that may cause results to differ materially from the statements set forth in this press release, including, among other things, certain risk factors described under the heading “Risk Factors” contained in EyeGate’s Annual Report on Form 10-K filed with the SEC on March 1, 2019 or described in EyeGate’s other public filings. EyeGate’s results may also be affected by factors of which EyeGate is not currently aware. The forward-looking statements in this press release speak only as of the date of this press release. EyeGate expressly disclaims any obligation or undertaking to release publicly any updates or revisions to such statements to reflect any change in its expectations with regard thereto or any changes in the events, conditions or circumstances on which any such statement is based.
